

--21. A method of treatment according to claim 16, wherein said medicament acts as an anti-cancer drug.--

--22. A method of treatment according to claim 16, wherein said medicament is a vitamin.--

~~--23. The compound according to formula I, wherein R-O is a residue of propofol.--~~

~~--24. The compound according to claim 23, wherein the alkali metal ion of R<sup>1</sup> and R<sup>2</sup> is independently selected from the group consisting of sodium, potassium and lithium.--~~

--25. A compound :

wherein Z is selected from the group consisting of hydrogen, alkali metal ion and amine, and n is an integer of 1 or 2; and pharmaceutically acceptable salts thereof.--

~~--26. The compound according to claim 25, wherein Z is independently selected from the group consisting of sodium, tromethamine, triethanolamine, triethylamine, arginine, lysine, ethanolamine and N-methylglucamine.--~~

~~--27. The compound according to claim 8, wherein R-O is a residue of propofol.--~~

--28. A compound :

wherein Y is a phosphono protecting group.--

--29. The compound according to claim 28, wherein said phosphonoprotecting group is selected from the group consisting of a benzyl group, a t-butyl group, an allyl group, and other acceptable phosphate protecting groups.--
